## Valaqua

<b>Company Name</b>	<b>Valaqua</b>
<b>Company Location</b>	Valencia, Spain
<b>Visit Venue</b>	Aquaculture farm with RAS
<b>Area of Specialization</b>	<p>Valenciana de Acuicultura, SA (VALAQUA), founded in 1984, directed all initial efforts towards the development of a novel system of fish farming using water recirculation techniques. For this purpose, among other actions, Dozens of water analyzes, catchment and discharge studies and contacts with municipalities and owners of different lands and sites. As a result of this, a decision was taken to acquire a plot of land situated in the municipal area of Puçol (Valencia), with an area of 26,000 m<sup>2</sup>, where construction began on the fish farm in 1985. Two years later, in 1988, the facilities were expanded, and thus their productive capacity, with two very clear objectives: On the one hand, to internationalize the Company by being present in the main European markets, and on the other hand, that this growth would consolidate the profitability of the business. Subsequently, in 1995, and thanks to the good acceptance of the product, the company underwent a new expansion with what the constructed surface happened to be of 5,500 m<sup>2</sup>, with a productive capacity of 300 tones per year.</p>
