10	GHOLAMREZA	HASSAN POUR	HASSAN POUR FISH FARM	CEO
11	EBRAHIM	AFRASIABIMASSAL	ORKIDEH MASAL COMPANY	CEO AND HEAD FO THE BOARD
12	ARDAVAN	BAKSHZAD MAHMOUDI	SEFIDROUD COMPANY	FISH FARMING COMPLEX MANAGER

In the following, you can see report of the visits as well as companies presentation.

Company Name	Aranyponty Zrt	
Company Location	Rétimajor, south of Fejér, Hungary	
Visit Location	The company including fish farm, museum, etc.	
Area of Specialization	<p>Aranyponty Zrt. owns one of Hungary's largest privately owned fishing enterprises. The company, which operates a full-scale, innovative fish farm, is located in Rétimajor, south of Fejér. There are four further sites in the country, covering about 1200 hectares of pond management activities.</p> <p>The company was established in 1994 and is characterized by an average annual turnover of HUF 800 million, with an expanding range of activities and dynamic development. Of the 1,200 hectares of farming areas, 1000 hectares are owned property and approximately 200 hectares is a rented area. The success of the company is due to the proper natural and physical resources available for fish farming and the personal conditions.</p> <p>A vast majority of fish in different kinds and ages are sold in the form of live fish. In the area of fisheries, the core of production is the propagation and spreading of high biological value carp, seed production and research. The company strives to associate modern technologies with traditional crafts and fisheries, while giving preference to environmental friendly solutions.</p> <p>In addition, the company regularly participates in domestic and international R&D programs for the development of sustainable aquaculture technologies. It was the initiator of the launch of domestic bio-fish production and was actively involved in the elaboration of the Hungarian standard regulating bio-waste production.</p>	

Visit Concept	<p>Presentation of Aranypony Zrt and Tógazda Halászati Zrt by Mr. Levai, the Deputy CEO of Aranypony Halászati Zrt. and Dr. Varadi, Vice-president of the Hungarian Aquaculture and Fisheries, Inter-branch Organization (MA-HAL)</p> <p>Visiting Fish Ponds, Hatchery and equipment</p> <p>Visiting Fishing Museum</p> <p>Presentation of Hungarian – Iranian Cooperation in Fresh-Water aquaculture</p>

Giving primary presentation of Aranypony Zrt and Tógazda Halászati Zrt by Mr. Levai and Dr. Varadi

Visiting fish ponds, fish hatchery, related equipment and Fishing Club of Aranypony Zrt.

Visiting Fihing Museum and holding enquiry session while discussing future possibilities of cooperation

Company Name	Teichwirtschaft Kainz	
Company Location	Waidhofen an der Thaya, Austria	
Visit Location	The company	
Area of Specialization	<p>Teichwirtschaft Kainz stands for pure natural products and 100% Austrian quality. They are well-known for tasty fish and fish seeds. Fish is sold under the protected trademark of "Waldviertler Karpfen". As a traditional family business, They have been dealing with sustainable fish farming in the natural ponds of the northern Waldviertel for over 60 years.</p> <p>Their carps have more time to grow: in the typical, harsh climate of the Waldviertel, they reach their harvest weight only after 3 summers. Their fish are therefore more vital and resistant; their flesh is more dense and fatter.</p> <p>In Their natural ponds, They manage around 126 hectares of water in the Waldviertel. They breed and produce carp, tench, rainbow trout, whitefish, pike perch, white amur (pike), pike, sturgeon, catfish, white fish, red-eye and red feathers .Besides, their company is continuously monitored by the Austrian Fish Health Service, in cooperation with the University of Veterinary Medicine Vienna.</p> <p>For private customers, the company prepare fillet and smoked fish, etc.</p>	
Visit Concept	<p>Presentation of the company and visiting fish ponds</p> <p>Visiting fish processing unit of the company</p>	

Giving presentation of the company and the history, visiting fish ponds and fish processing unit of the company

Company Name	Biofisch GmbH	
Company Location	Vienna-Hernals, Austria	
Visit Location	The company (Fish Processing Unit)	
Area of Specialization	<p>Biofisch GmbH is located near Vienna, Austria. It is the marketing platform of ARGE Biofisch and it includes fish from breeding to sale. The ARGE Biofisch was founded in 1994 by a group of fish farmers around the biofisch pioneer Marc Mößmer in the upper Waldviertel region. Marc Mößmer is a co-founder of ARGE Biofisch who manages the Biofisch GmbH and through lectures and consultations explains the special features of organic fish farming. By organic fish farming, It means that Chemical growth promoters, Use of hormones, antibiotics, Genetic Engineering, Synthetic additives in feed and fertilizers are avoided.</p> <p>A wide range of fish such as Carp and Trout are brought up from their ponds in lower and upper districts of Austria.</p> <p>The fish live there for a few days in the best fresh water of this company and then they are slaughtered, filleted, smoked, boiled, processed, made ready for the market and distributed from there to the markets, mostly to customers in the Vienna area.</p> <p>Furthermore, the fish may be sold fresh and live in fish ponds as per customer's request. Frozen fish may be available for customers too. Processed fish such as smoked fish, fillets and flavored fish are other products of this company.</p>	
Visit Concept	<p>Presentation of the company and Organic fish by Mr. Marc Mößmer</p> <p>Visiting fish processing unit</p>	

Giving primary presentation of the company, history and organic fish farming and visiting the fish processing unit

Company Name	Bayerische Landesanstalt für Landwirtschaft; Institute for Fisheries	
Company Location	Höchststadt, Germany	
Visit Location	The company and a fish farm	
Area of Specialization	<p>The institutes are the basis of the LfL (Bayerische Landesanstalt für Landwirtschaft), developing project-oriented solutions for the future. Guideline for this purpose is the operational program of the LfL. One of these institutes is Institute for Fisheries which is an organization of below working groups:</p> <ul style="list-style-type: none"> - River and lake fisheries - Carp pond aquaculture - Rainbow trout aquaculture - Intensive aquaculture - Education and training <p>Performing Research and Development activities with regard to the projects and also holding training courses for different level participants can be mentioned as some responsibilities of this institute.</p>
